

The Epigenome and Developmental Origins of Health and Disease

Edited by Dr. Cheryl S. Rosenfeld

Table of Contents

1. The Developmental Origins of Health and Disease (DOHaD) concept: past, present and future.

Peter D. Gluckman, Tatjana Buklijas and Mark A. Hanson

2. Historical Perspective of Developmental Origins of Health and Disease in Humans

Lewis P. Rubin

3. DOHaD and the Periconceptional Period, a Critical Window in Time

Congshan Sun, Miguel A. Velazquez and Tom P. Fleming

4. Introduction to Epigenetic Mechanisms: The Probable Common Thread for Various Developmental Origins of Health and Diseases Effects

Martha Susiarjo

5. Fetal Neuro-Hormonal Programming and Endocrine Disruption

Cheryl S. Rosenfeld

6. Parental nutrition and developmental origins of health and disease

Miguel A. Velazquez, Congshan Sun and Tom P. Fleming

7. Maternal prenatal stress and the developmental origins of mental health: the role of epigenetics

Kieran J. O'Donnell and Vivette Glover

8. Epigenetics in the Developmental Origin of Cardiovascular Disorders

Jeffrey S. Gilbert

9. Developmental Effects of Endocrine-Disrupting Chemicals in the Ovary and on Female Fertility

Mehmet Uzumcu, Aparna Mahakali Zama

10. Developmental and Epigenetic Origins of Male Reproductive Pathologies

Carlos Guerrero-Bosagna

11. Developmental Origins of Childhood Asthma and Allergic Conditions – is there evidence of epigenetic regulation?

Steve Turner

12. Immune Disorders, Epigenetics, and the Developmental Origins of Health and Disease

Rodney R. Dietert and Amrie C. Grammer

13. Neurobehavioral Disorders and DOHaD

Curt A. Sandman, Quetzal A. Class, Laura M. Glynn, Elysia Poggi Davis

14. Metabolic Disorders and DOHaD

Sara E. Pinney

15. The developmental origins of renal dysfunction

James S. M. Cuffe, Sarah L Walton and Karen M Moritz

16. Cancer and DOHaD- Epigenetic reprogramming as a mediator

Shuk-Mei Ho, Ana Cheong, Sarah To, Vinothini Janakiram, Pheruza Tarapore, and Yuet-Kin Leung

17. Epigenetic regulation of gastrointestinal epithelial barrier and developmental origin of health and disease

Jean-Paul Lallès, Catherine Michel, Vassilia Theodorou and Jean Pierre Segain

18. How the Father might Epigenetically Program the Risk for Developmental Origins of Health and Disease Effects in his Offspring

Kristin E. Murphy, Timothy G. Jenkins and Douglas T. Carrell

19. Linkage Between in Utero Environmental Changes and Preterm Birth

Markus Velten

20. Sexual Dimorphism and DOHaD Through the Lens of Epigenetics

Claudine Junien, Sara Fneich, Polina Panchenko, Sarah Voisin, Anne Gabory

21. Transgenerational Epigenetic Inheritance: Past Exposures, Future Diseases

Carlos Guerrero-Bosagna

22. The Placenta and DOHaD

Jane K. Cleal and Rohan M. Lewis

23. The Moral and Legal Relevance of DOHaD Effects for Pregnant Mothers

Michele Loi and Marianna Nobile

24. Introduction to Moms in Motion (MIM) Chapter

Cheryl S. Rosenfeld

25. Reversing Harmful DOHaD Effects

Mei-Wei Chang, Susan Nitzke, Ken Resnicow, Roger Brown, M. Jean Brancheau Egan, Kobra Eghtedary, Cheryl S. Rosenfeld

26. Informational Resources for Developmental Origins of Health and Disease Research

Cheryl S. Rosenfeld
